**DESCRIPTION**

Test Sample, ASTM D808, ASTM D129 and ASTM D512, 062-P, Covering: Pyrogel GR 100 - 06224, Pyrogel GR 60 - 06223; Pyrogel GR 25 - 06222 and Pyrogel Base Fluid - 06221

The submitted sample was analyzed in accordance with Customer's Instructions with the following results:

<u>ELEMENT</u>	<u>ACTUAL</u>
Total Halogens as Chloride (Cl, Br, I)	242. ppm
Total Sulfur	< 1. ppm

The services performed above were done in accordance with LTI's Quality System Program Manual Revision 17 dated 12/3/04 and ISO/IEC 17025. These results relate only to the items tested and this report shall not be reproduced, except in full, without the written approval of Laboratory Testing, Inc. L.T.I. is accredited by NADCAP to ISO/IEC 17025, Material's Testing and NDT (MT, PT and UT).

**MERCURY CONTAMINATION:** During the testing and inspection, the product did not come in direct contact with mercury or any of its compounds nor with any mercury containing devices employing a single boundary of containment.

**NOTE:** The recording of false, fictitious or fraudulent statements or entries on this document may be punished as a felony under Federal Statutes.
